

BE AT THE LEADING EDGE

INTEGRAL LEADERS COURSE

How do you think leadership in corporate Australia has changed in the last ten years?

" Leaders are being called to transcend their limiting beliefs regarding power and control to become Integral leaders. Men and women are being called to merge their masculine and feminine energy to become whole and less identified with their self-identity and gender. Leaders are being called to evolve beyond their ego and 'looking good' to serve the whole. There is a growing passion for compassion and goodness in the workplace and life. Leaders are the one's who set the tone and inspire others. Leadership is changing and evolving and many great leaders today see their development as key to changing our culture." Sarah McIntyre, Succeed Magazine 2007

INTEGRATING THIS LEADERSHIP

Develop a new paradigm for your own leadership that will create:

- elegant solutions by transcending common business issues
- move you to a new tier of leadership
- motivate and inspire leading edge teams

To actually live this takes commitment and personal transformation of individuals at NOT only a cognitive level BUT including an emotional, energetic and spiritual level. Available NOW is a 3-month professional development course that will develop your leadership as an **Integral leader** following the teachings of Ken Wilber and Integral Theory. For those of you being called to cross the line and become a 2nd Tier Leader – the leap calls for you to develop yourself beyond what you know, it takes courage and a deeper CARE beyond self. 2nd Tier consciousness is relatively rare but it is now at the "leading edge" of collective human evolution.
